Homework

- There are 3-4 (or more) big homework in this course
- Each homework is several **challenging** tasks
- The homework focuses on **implementing** the **algorithms** you learn
- The homework focuses also on **using scikit-learn** library

Project

- I **will** work on a challenging project that will help you apply several concepts
- The project can be modeled in several ways, administrating how real-projects go
- The project will help you strongly administrate in github your work
 - Missing in many people CVs
- It is a **CV-level** project
 - I hope I may add more but no promise

Policy

- You are NOT allowed to share the homework with ANY one
 - You can't upload on the internet
- You can present your project on Github
 - But you can't make the datasets links public to ANY ONE
- سوف تقسم على ذلك

“Acquire knowledge and impart it to the people.”

“Seek knowledge from the Cradle to the Grave.”
